Describe your group/organisation

(Target group, age of group members, number in group, gender ...)

We are all together 18 members in our group. Both girls and boys, from the age 19 until 22 years old.

What do you want to do?

(Project theme, when, where, with one or more countries as partners ...)

This group was developed for teaching and learning each other about movies and movie techniques. Filmmaking..... We make short movies, and share our experience. We meet each other at least one time a week.

We do have a leadership were people do different type of tasks. Each time we meet to look through the tasks. Each member participates with different things, like presentations, sharing some knowledge or just something for the social activities.

Partner country of preference (if any)

We do not have any specific country we want to have as a partner, but we have heard that countries like Germany and Italy are doing great in short film production. We just want to learn, and meet other people with the same type of interest as us.

Language for exchange

Our mother language is Norwegian, but all of us can of course also speak English fluently.

Do you want to add something?

We all hope that this can contribute and give us a chance to meet others, and learn more about filmmaking. We are all committed to the work and to the group, and we hope that this can help us the reach our goal.
