Please describe the project you would like to develop (project theme, when, where, how many partners...) The Project begins from a research, promoted by the social cooperatives Passwork and Iris, and financed and published by Institute for Social Affair in Rome, on the phenomenon of drugs abuse by young people for recreative purpose (m.d. Gazzara and other, the fever of the saturday night. Recreative drugs. The phenomenon in the territory of Province of Siracusa, Institute for Social Affair, Rome, 2008). Institute for Social Affair develops activity of research, strategic advising, technical attendance and formation in matter of social policies, included the professional and working sector in the social field. In the research appears obvious as exist a youth problem relative to the spread and the abuse of drug to recreative purpose.

The Project proposes, through the predisposition of a series of meetings concerning defined and structured themes on the topic, to create a project work shared between the operators involved, that through their experiences and acquaintances in the matter, can allow, on the one hand, to increase the awareness of this phenomenon, and, on the other hand, to suggest innovative modalities of participation that will be promoted through a project work.

The activities proposed here represent priorities of ANG Program:

- **PERMANENT PRIORITIES:** Inclusion of young people with few opportunities, with particular attention for young people with deficit in the social abilities or with antisocial or at risk behaviors, or people that live in precarious situations like (ex) delinquents, and (ex) people with drug and alcohol dependence.

- **PRIORITY ANNIVERSARY:** European year against the Poverty and Social Exclusion, with particular attention for the projects that stimulate the reflection on the prevention.
